Education

Kalinga Institute of Industrial Technology (KIIT) Bhubaneswar, Odisha *Bachelor of Technology in Computer Science and Engineering (CGPA: 9.06 / 10.0) 2023 – 2027* **Technical Skills**

12th- VJ. INTL School |CBSE- 2022| 85.4%

10th- St. Joseph's School| ICSE-2020| 89%

Technical Skills

Languages: Python, Java, SQL, C++

AI/ML/GenAI: PyTorch, TensorFlow, Scikit-learn, Sentence Transformers, Cross-Encoders,

LangChain, ChromaDB Backend & Web: FastAPI, REST APIs, Streamlit

Cloud & DevOps: Docker, AWS, GitHub Actions, Render, Vercel, Git

Projects

1.CircularAI | *FastAPI, AsyncIO, Gemini API, Pydantic, Docker*

Live Demo- <https://second-life-commerce-lac.vercel.app/>

GitHub- github.com/SAKSHI1243/second-life-commerce

Developed an AI-powered reverse logistics platform utilizing Gemini Multimodal AI for automated product grading. Architected resilient backend services featuring structured Pydantic response validation and exponential retry mechanisms.

2.PatentLens AI | *Python, Streamlit, ChromaDB, BM25, Cross-Encoder, SQLite*

Live Demo :<https://patent-lens-copilot-dz2lmhk66htmw8jenely54.streamlit.app/>

GitHub :: <https://patent-lens-copilot-dz2lmhk66htmw8jenely54.streamlit.app/>

Built a hybrid semantic search engine indexing 1,700+ patent documents via dense vector retrieval and sparse BM25 search.

Enhanced precision using Cross-Encoder reranking and reduced inference memory usage by 95% through CPU optimization.

3.PhishGuard | *FastAPI, Streamlit, Scikit-learn, Python*

Live Demo :<https://phishguard-dashboard-smjr.onrender.com>

GitHub :github.com/SAKSHI1243/phishguard-system

Engineered an ML classification pipeline detecting phishing threats via URL structural features, SSL certificates, and WHOIS data.

Achieved 96.24% model accuracy and deployed real-time inference services using FastAPI.

4. HabitIQ AI | *Python, Scikit-learn, NLP, FastAPI*

Built a behavioral analytics platform combining sentiment analysis on journal entries with routine recommendation models. Implemented anomaly detection algorithms to identify productivity drops and habit inconsistencies.

Achievements & Certifications

Smart India Hackathon: Secured Runner-Up position (Ranked 2nd out of 502 teams at college level). •
Competitive Programming: Solved 350+ Data Structures & Algorithms problems across LeetCode and

GeeksforGeeks.

Professional Certifications: Oracle Cloud Infrastructure (OCI) Foundations, IBM AI Fundamentals, Tata Generative AI Professional Certificate.
