Education

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar (2023 – 2027)

Bachelor of Technology in Computer Science and Engineering CGPA: 9.06/10.0

Technical Skills

Languages: Java , SQL ,Python

Backend: FastAPI, REST APIs, Streamlit

AI/ML & Core Concepts: Machine Learning, Deep Learning, Natural Language Processing (NLP), Generative AI, RAG, PyTorch, TensorFlow, Scikit-learn, LangChain, ChromaDB, Cross-Encoder

Core CS: Database Management System ,Object Oriented Programming (Java), Computer Networks, Operating System , Data Structure and Algorithm

Cloud & DevOps: Docker, AWS, GitHub Actions, Git, Render, Vercel

Projects

SecondLifeCommerce | FastAPI, AsyncIO, Gemini API, Pydantic, Docker

[GitHub](#) | [Live Demo](#)

- Built an AI-powered reverse logistics platform that uses Gemini Multimodal AI to automatically evaluate and grade returned products.
- Developed a FastAPI backend with Pydantic validation and asynchronous processing to handle AI responses reliably.
- Added retry mechanisms to improve stability when communicating with external AI APIs.

PatentLens AI | Python, Streamlit, ChromaDB, BM25, Cross-Encoder, SQLite

[GitHub](#) | [Live Demo](#)

- Built a patent search engine that indexes over **1,700 patent documents** using both semantic and keyword-based search.
- Improved search relevance by combining dense vector retrieval, BM25, and Cross-Encoder reranking.
- Reduced inference memory usage by **95%**, making the application run efficiently on CPU.

Publications & Achievements

"A Unified Cross-Dataset Machine Learning Framework for Stress Prediction"- A. Bashyal, **S. Sah**, et al. — Accepted, IEEE IC-SIT 2026 Presented at the conference. Co-authored the paper as part of a 9-member research team.

Smart India Hackathon: Secured Runner-Up position (Ranked 2nd out of 502 teams at college level). Solved 350+DSA questions in Java(leetcode).
